RM Gastro Group
In Prague on April 4, 2016

RM Gastro for the first time at the Singapore Trade Fair

RM Gastro first time participating in the Fair Food Asia, which takes place April 12 to 14, 2016 in Singapore. There will be exhibiting its equipment as RM line 700, REDFOX line 900 and new pizza oven RM brand.

Singapore is a city that represents a particularly important role in our expansion plans to new markets in Asia. "Singapore, due to its geographical position, stability and business relations, is a natural gateway to doing business in China, Japan, Malaysia, Vietnam and other Asian countries." explains Radek Bartoš, the International Sales Manager.

For many Europeans, Asia is synonymous with cheap production or exotic holidays. However, from a business point of view, it is a dynamically developing region with rich economies and an increasing demand for European goods of high quality, increasing steadily year on year. "We estimate that in Singapore alone we could reach a turnover of EUR 1.7 mil. And if we consider the neighbouring countries, this would be an additional EUR 60 mil." predicts Radek Bartoš.

Therefore, we are going to exhibit our kitchens at the Food Asia 2016 trade fair. This is our first presence in the region and we believe that it will be a successful start of building business activities in the lucrative Asian markets. Come and visit us between 12. - 15. 4. 2016 at the Singapore Expo, where we will be presenting our products together with Venix and Mec at the 5B1-01 exhibit stall.

RM Gastro is a leading European producer and supplier of professional catering equipment. On the Czech and global markets, the brands RM and REDFOX offer a complex solution for hotels, restaurants and other catering facilities. RM Gastro celebrated its 20th anniversary in 2014 and reached a turnover of CZK 1 bill. In its branches in the Czech Republic, Poland and Slovakia, RM Gastro employs 280 people. The company's own products, produced in a production site in Veselí nad Lužnicí, are supplied to customers in more than 50 countries worldwide.
